

KEROSENE

KO-20

TŞ 05766698-11-2006

#	Description of index	Norm
1	Density at 20 °C, kg/m ³ , not more	830
2	Fraction composition: Till 270°C, is distilled, %, not less 98 % is distilled at the temperature °C not more than	80 310
3	Color in the conditional units , KNS, not more	15
4	Height of sootless flame, mm, not less	20
5	Flash point, determined in closed crucible, °C, not less than	40
6	Cloud point, °C, not more than	-12
7	Acidity, mg KOH for 100 cm ³ of kerosene not more than	1,3
8	Ash, %, not more than	0,005
9	Mass portion of sulfur, in %, not more	0,1
10	Copper strip test	Can resist
11	Content of the water-soluble acid and caustic	Not present
12	Content of mechanical impurities and water	Not present
